Society Couple Figure in Sensation.

Society in Montecito, adjoining Santa Barbara, Cal., is all astir over sensational developments leading to a tentative separation of a former Paris, Kentucky, woman and her husband. The woman in question is Mrs. William Miller Graham, who was formerly Miss Birdie Pollock, of this city.

Not only has this sensation produced a state of chaos in Santa Barbara, but the other side of the world is listening to it with a great deal of interest. Mrs. Graham, the wife of a multi-millionaire oil magnate, four years ago made her bow in the social circles of Paris and London. Meeting with much success she won her way to the English court where she was presented to the King. The campaign was perhaps the most brilliant ever conducted by an American against the society of the old world.

There appeared on the scene the person of Lord Lansdown who became very attentive to Mrs. Graham. At about the same time a dashing widow by the name of Mrs. Louise Timson, vivacious and beautiful. William Brownell, of Santa Barbara, was a regular patron of the Graham solon. Mr. Graham urged continuance of the campaign of his wife; money was no object. Mrs. Graham then moved to London and with her went Brownell and Mrs. Timson, and backed by the Lord Lansdown continued her triumphant march.

Wearing her laurels modestly Mrs. Graham returned to America and Santa Barbara, Brownell returning a short time after. Mrs. Timson, the dashing young widow followed and lived in the society of Santa Barbara with her presence. The urgent need of money prompted Mrs. Timson to solicit a loan of eight thousand dollars from Brownell, and according to the demand made upon his purse responded readily. Mr. Graham, who spent the greater part of his time in New York, found it convenient to stay in Santa Barbara without injuring his business, and was frequently in the company of Mrs. Timson.

A few months ago Brownell and Graham met at a club and exchanged blows. The story goes that Brownell accused Graham of something the latter resented, and at this point dark clouds began to gather. Brownell entered suit against Mrs. Timson for eight thousand dollars and the latter filed a counter suit to retain a certain article which was claimed she bought.

Mrs. Graham, at this juncture, showed her hand and making use of the rumors emanating from Montecito, forced her husband to sign over to her property valued at a million and a half dollars. Mrs. Graham is now in Santa Barbara while her husband is in New York.

The estrangement has created quite a sensation in society of London and Paris and Santa Barbara, and gossip is rampant as to the ultimate result, as several foreign letters and long cablegrams have been received by Mrs. Graham.

Good Attraction at the Grand.

Good shows are coming to the Grand in plenty and the patrons of the popular play house are rapidly coming to the realization that the management is putting forward the very best attractions on the vaudeville stage. Last night was presented one of the strongest bills ever seen on the local stage. Cole & Cole in a nonsensical musical act carried away the audience. A clever tight wire act and two reels of motion pictures completed a bill of merit. Tonight will be the last appearance of these two excellent acts in this city as the midweek change will occur tomorrow night.

Bourbon Crop Conditions.

Farm work held in check by altogether unfavorable conditions, compares very favorable with one year ago, but the existing conditions does not discourage the farmer.

While the farmer has been waiting for settled weather in order to resume plowing, he has watched with an air of confidence and with a smile of great satisfaction the budding of new life as daily evidenced by growing vegetation.

Wheat and rye fields are showing a luxuriant growth and pastures and meadows are greening up rapidly.

The former is the chief reliance of the farmers, as its rapid growth means pasture for his live stock and the corresponding saving that will result from a discontinuance of dry feed and the additional promise as indicated of abundant yield of Blue Grass seed which in the local market, for cured delivery in August, has sold for \$1 per bushel.

With the view of getting better results farmers are testing seed corn and investigations are already in progress that will, it is believed, solve the feed question by the building of silos for the storing away of use in wintry weather of a form of succulent feed that will be far more valuable as a feed product for fattening of live stock and at a much cheaper price.

Rebards to be offered for the best results obtainable in corn growing contests will, it is believed, bring to the attention of Bourbon farmers in a practical way the value of manures and fertilizers that will result within a few years of the rehabilitation of many worn out fields scattered throughout the county and an era of greater farm development and greater farm returns.

SPORTING NEWS LETTER

By C. H. ZUBER.

Over in Paris they have the peculiar idea that white men should not batter each other up in the prize ring, and that this sort of thing should be limited to the sable exponents of the art of self defense. Consequently, fights between colored men are better patronized than are the scraps of the white pugilists. Joe Jeannette and Sam McVey, two of the best of black American scrappers, have already acquired fortunes by their series of battles at the French capital, and Sam Langford, the "Boston Tar Baby," is over there now to get his share of the shekels. While Johnson isn't doing any talking for publication behind the prison walls of San Francisco, where a penchant for speeding his auto landed him, it is said that as soon as he gets out he'll also hit Paris for some of the easy money. Meanwhile, the game is getting better for white fighters in America, indicating a more liberal spirit on the part of city officials everywhere.

Kentucky will see most of the racing in the United States during the present summer. The season, which opens next week, will include dates at Lexington, Louisville and Latonia, and is expected to bring out a better class of horses than has been seen on the Kentucky tracks in many years. This is due to the fact that the owners have no other places to race them except on the Canadian circuits, and these will be too cold for a month or six weeks to make the sport really attractive. Taken in all, however, there will be less racing in the United States this season, both on the running and the harness tracks, than in many previous years.

Versailles Without a Hotel.

The Oneal House closed its doors to the public Monday evening and for the first time within our recollection Versailles is without a hotel, says the Woodford Sun.

J. B. Wakefield, who has been manager of the Oneal House since 1908, has decided to quit the hotel business and will locate near Shreveport, La., where he has rented a plantation. Mr. Wakefield is now in the South and Mrs. Wakefield and their children will join them there soon. They expect to leave Versailles this week.

The controlling interest in the hotel property is owned by Mrs. Mary Evans, M. J. Hughes, brother of Mrs. Evans, and also her agent, said that the hotel would be rented or sold at once, either privately or publicly.

Novel Court Decision.

Damages cannot be recovered by the administrator or the children of a man who dies from the result of drinking whiskey, notwithstanding the whiskey is sold in local option territory or the man who dies is an inebriate, unless notice is given to persons selling whiskey of the man's inebriacy.

This law was construed for the first time anywhere in this kind of a case Wednesday when the Court of Appeals affirmed the judgment of the Mercer Circuit Court in the case of Fred Britton's administrator, Hubert Britton and Marshall Britton against H. E. Samuels. It is alleged that Samuels in February 1909, had furnished Fred Britton with spirituous liquors and admixtures thereof which he drank and from the effects of which he died, it was claimed.

Eclipse.

The people of Paris and Bourbon county will have the rare chance to witness a total eclipse of the sun during this month, the phenomena coming on the 28th, and will be visible from three to six o'clock in the afternoon. The southern, southeastern and southwestern states will come in for a direct view, but the northern section of this country will be excluded. Local astronomers are preparing for a treat while Old Sol is thus shaded. The eclipse will also be visible to Mexico, Central America, the western portion of the West Indies, the eastern half of Australia, New Zealand and the Pacific ocean, the path of totality extending from Auckland, Australia, across the Pacific ocean almost to Central America. An annular eclipse of the sun will occur on October 22, which will be invisible to the United States, but visible to Asia, Philippine Islands, Australia, the Northern part of New Zealand and on the Pacific ocean.

Clay Stable Shipped to Louisville.

Clay Brothers of Bourbon have shipped their racing string to Louisville, where the imposing bunch of royal bred horses is now gathered at Douglas Park. The star of the string is Ocean Bound, conceded to be the greatest four-year-old filly now in training. After two years old she won the Astoria, Spinaway, Vernal and Criterion Stakes, and last season she won eight races, including the Latonia, Criterion, Alabama, Gazella, Ladies' and Swift Stakes. Her mile in 1:37 2-5 is the track record at Saratoga, and in the Swift Stakes, when she ran seven furlongs in 1:25 4-5, she beat the noted colt Eulimantion.

Ocean Bound has wintered splendidly and has grown some, as well as spread out a lot since last season. She has had a long let-up, not having been seen under colors since she won the Criterion Stakes at Latonia last fall. She will be her stable's standard bearer in the rich Clark Handicap in Louisville this spring, and is sure to give an excellent account of herself in that big race. Clay Brothers have some nice youngsters, and the stable is, all around, most promising this season.

McCreary Puts Up Fee.

BLACK HAWK CORN PLANTER No. 15 VARIABLE DROP! Light Draft, Simple Construction.

Our special new feature in this planter is that we not only get an accurate number of kernels in each hill, but we get the number of kernels in each hill which the fertility of the soil is able to bring to perfect maturity.

No field was ever known to contain exact uniformity in strength of soil. It is just as unreasonable to expect the same results from thin, weak soil, in comparison with deep, rich soil, as it is to expect a child to do a man's work. This is a reasonable proposition, particularly to the scientific corn grower.

More money is being spent and greater efforts along educational lines are being made to-day than ever before in the world's history to increase the yield of corn per acre. We contributed a very large effort to accomplish these results with our Black Hawk single kernel edge drop, and we now add to our combination the No. 15 Variable Drop, with which the drop can be changed to 2, 3 or 4 kernels in a hill without stopping the team; or can drill 7 1-2, 10 or 15 inches, 9, 12 or 17 1-2 inches, or 11, 14 or 22 inches apart, without stopping the team.

Hand Drop Attachment with each Planter, has Foot Drop also. Will plant last two rows and wind wire at same time. Come and let us show you the best planter made.

A CIPHER TELEGRAM

By F. A. MITCHEL

Copyright by American Press Association, 1911.

Hornby was but twenty-two when he was made secretary of the American legation at Berlin.

Hornby was very popular in society, though, not having a fortune, he was rather sought by married women coveting attention than young girls angling for a husband. Among these wives who interested themselves in the young diplomat was Mme. Berthalow, the wife of a Parisian financier. At that time the world was stirred by the Morocco affair, and it was feared there would be a war between France and Germany. M. Berthalow was in Berlin endeavoring to secure the first news in case the emperor decided to go to war for speculative purposes.

One evening at a court ball Mme. Berthalow, seeing Hornby pass her, called him to her on some pretext and later, while hanging on his arm, said to him:

"Mr. Hornby, do you think there will be war?"

"I don't think about such things."

"I am sure if war is declared you will know it before it is made public."

"Why do you think that?"

"Because I have been told that before going to war the emperor must know how the other powers will act, and your government is now one of the powers. The American minister will be able to judge if there is to be war and will inform his government. What he knows you know."

Hornby smiled without making any reply. The lady spoke of other matters and finally said:

"I presume all important dispatches are in cipher."

"They are."

"What is the word for 'war' in your cipher code?"

"Oh, it wouldn't do for me to tell you that."

"Please tell me that one word. I'll not divulge it."

"Well, on your promise, I'll tell you. It is 'woman.'"

"Good gracious! Why was that word chosen?"

"I don't know. I didn't make the code."

"And what is the word for 'peace'?"

"Man."

"Upon my word! I should have supposed those two words would have been reversed."

"Perhaps that's the reason of their use as they are. They are not so easily deciphered."

Mme. Berthalow looked up into the young man's face. It was as guileless as a May morning. She continued her investigations.

"Our family have an old claim against the United States, dating back a hundred years or more, for a vessel owned by my great-grandfather, destroyed by an American privateer. I should like you to advise me concerning it."

"I shall be happy to do so. I am at my office from 11 to 6 every day, where it will be proper for you to call."

This was not satisfactory to Mme. Berthalow. She would have preferred to have the young man call upon her where she could talk with him in secret, but on second thought she considered that there would be an advantage in going to his office. She might light on some information not intended for her. The next day at 12 o'clock she appeared at the legation.

"Ah, madame," Hornby said, "we are very busy today, and I fear I shall have to keep you waiting. If you will go into my private office for awhile I shall be happy to advise you presently concerning your claim."

He ushered her into a cozy room in the center of which stood a table with writing materials and papers scattered about. Mme. Berthalow, being alone in the room, made a hurried examination of the papers. One of them bore evidence of having just been written. It was marked to be sent by cable to the secretary of state at Washington. The lady eagerly seized it and ran her eye over it. There was a jumble of words the meaning of which was unintelligible to her, but she noticed scattered throughout the dispatch the word "woman." It occurred five times. She had all the time she needed for the examination—indeed, more than she wished, for she was anxious to get away that she might impart the information to her husband that there was to be war.

Presently Hornby came in and informed her that he was ready to listen to the matter of her claim. She told him she had left home without having locked up the jewels she had worn the night before and must return at once. Hornby gave her one of his engaging smiles and saw her to her carriage.

When Hornby returned to his office he threw the cipher telegram into the wastebasket and wrote one to a broker in Paris announcing that a prominent financier would probably "sell the market." If so it would break, and the broker was to buy largely for Hornby's account.

Hornby by the operation made a fortune. Some time after this Mme. Berthalow said to him:

"Are you sure that in your cipher code 'woman' stands for 'war'?"

"It does not now. You convinced me that its use thus was ungallant, and I arranged for its being changed to mean 'peace.'"

Colts and Vets in Two Games.

The first game of the base ball season was played Saturday afternoon at White Park between the Colts and Vets and resulted in a victory for Barnett and the Colts by a score of 7 to 6. Sunday afternoon the Vets evened matters by taking the measure of the Colts by a score of 3 to 0, in a fast eight and a half session contest. Schrauder presided on the mound for the Colts in the first five innings and showed considerable speed allowing but one safe hit, fanning three and in only one session did more than three face him. He completed a neat double in the fourth retiring Barnett and Goodwin.

Hooser finished the game for the Colts and dished out an assortment of curves that puzzled the batters. At no stage did he seem to extend himself and went the route in an easy fashion. In the eighth two errors by Rapp put two men on bases, but he retired the side by fanning Barnett. Hooser bears the earmarks of a promising youngster.

Brown, who hurled the first four sessions for the Vets held them without a safety until the fourth when McKernan doubled to center. Woods and Timme finished the contest. McKernan was the star performer of the afternoon getting two doubles and a single out of four times up.

Both sides put up a snappy game and during the hour and thirty minutes a number of neat plays were pulled off. Simon, the Colt catcher, and Rapp at short loomed up brilliantly.

President Bacon returned Saturday morning from a scouting expedition and announced that he had purchased two players both of whom will be here this week to participate in the practice games that are scheduled. One of the men is Pitcher Spears, who was purchased from the Minneapolis club of the American Association, and the other is a short stop and catcher by the name of Kelvey, who is from the same team.

Goodman and Kuhlman, of the pennant winning aggregation, are expected here today when the real practice work of the season will begin, and the men will shape themselves for the contest with the Barboursville College which will be here Thursday for two games. Transylvania University will be here on April 22.

Kentuckian for Mexican Cabinet

George Zimmerman, a former Lexington man, who has been in active service with the Mexican insurgents since the beginning of the uprising in that country, and who is now a major on the staff of General Francisco I. Madero, the rebel leader, after having been promoted from a lieutenant for bravery while a member of the now famous dynamite squad at Casas Grandes in which so many Americans were killed, writes from Mexico that Madero has selected him as one of his prospective cabinet members in case the rebels are successful. Zimmerman's letters were sent from a town on the Texas border where he had crossed into the United States to take back a company of men and some supplies for the rebels.

Nicholasville Wets Have Majority

The local option election at Nicholasville resulted in a victory for the wets. The whisky people carried two of the three precincts, their majority being 63. Last year the town went wet by 35. A heavy vote was polled and a great deal of interest was manifested. The election passed off quietly and there was no demonstration when the result was announced.

Toney a Second Amos Rusie.

The Chicago Record-Herald says: "Fred Toney, the reincarnation of the great Amos Rusie, is ready to baffle Hans Wagner, Sherwood Magee, Fred Snodgrass and the rest of the Demon swatters in the National League. The tall boy from the Tennessee mountains went the full route against the Danville upstarts Monday at the West Side yard and soundly spanked Jack McCarthy's B. Class boys for picking on Al Campion's youngsters the day before and holding them to a 2 to 1 count. Toney's smoke not only scared the downstate gang away from the plate, but also fogged the atmosphere in front of the big scoreboard, so that only by close inspection could the handful of fans that turned out get a slant at the figures 6 to 1."

"The final count made but little difference. No one was betting that the Cubs, presenting their regular fighting front would be defeated. The gallant gallery was there to pass judgment on Toney, and the smile that Frank Chacne wore during the entire combat was a reflection of the fan's opinion."

"Toney had everything that an athlete in fast company should have. He was touched for five hits, two being of the scratch variety, and issued but one pass. He fielded his position perfectly and backed up the first baseman like an old time. He mixed a floater with his speed ball and had that mysterious something to put on the sphere when occasion demanded."

Crop Conditions in Bourbon.

Heavy rains that soaked the ground during the week and all plowing ceased. Farmers are only about half through breaking the ground and much plowing is yet to be done.

Vegetation is moving off slowly due to the unseasonably cold weather. Wheat and rye are looking well and the former promises a big crop. Blue Grass is getting a start and grazing will soon be excellent.

A good crop of Blue Grass seed is indicated and sales for future delivery are being made. It is reported that E. F. Spears & Sons have sold to a Winchester buyer 5,000 bushels of Blue Grass seed to be delivered in August at \$1 per bushel.

The live stock market is inactive. Some shipments of hogs are being made and one sale of lambs is reported for June delivery at 5 1-4 cents per pound. Twenty cents per pound is being offered by dealers for the best of the wool clip.

Fat cattle are showing good condition, but buyers are holding aloof. Indications are that prices will be about 1 1/2 cents per pound lower than a year ago.

Save the Coal Dust.
Coal dust should never be wasted. Have a special galvanized scuttle for it and mix sufficient water with it to make it quite moist. When a fire is nice and clear bank it up with this coal dust and it will last for hours. Where this is done there is no accumulation of coal dust so common in some households.

Gives Aid to Strikers.
Sometimes liver, kidneys and bowels seem to go on a strike and refuse to work right. Then you need those pleasant little strike-breakers—Dr. King's New Life Pills—to give them natural aid and gently compel action. Excellent health soon follows. Try them. 25c at Oberdorfer's.

After Montgomery Vote Sellers.

The Montgomery county grand jury has begun investigating the vote traffic in Montgomery county, and has summoned a hundred witnesses to appear before it. Indictments are looked for. It is the first time vote-selling has ever been investigated in Mt. Sterling. The Mt. Sterling Gazette is fighting the illegal buying of votes, and the citizens generally are commending the grand jury for their efforts to break up the corrupt practice.

Feats in Climbing.
Not only have some of the peaks near Pontresina been ascended this winter, but also some of the highest mountains in Switzerland, including the Jungfrau. Feats in winter climbing are now often performed which a few years ago would have been considered impossible.

In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga.
"I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings.
"I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui.
"Since taking Cardui, I am so much better and can do all my housework."

Take CARDUI
The Woman's Tonic

Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out. Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition.
In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health.

Hard to Answer.

Little four-year-old Robert, like many other boys of his age, liked to ask questions. So when the first downy chicks came in the spring and his mother saw him studying them most intently, she knew something was coming. And it did, for presently he turned to his mother and asked, "Mamma, are chickens' legs hind legs or front legs?" —M. B. Denison in Woman's Home Companion.

Kentucky Cotton Crop.

Fulton county, though the smallest county in the state, made a fine showing on cotton alone last year. The crop was worth to the growers \$175,000, and was confined largely to the extreme west end of the county. On account of the good price realized for several years there will be an increased acreage put in this spring. Cotton has yielded from \$40 to \$60 per acre in Fulton for the past two or three years.

Breathitt Out of Race.

Judge James Breathitt, of Hopkinsville, Attorney General of Kentucky, last week declared himself out of the race for the Republican nomination for Governor. Gen. Breathitt's name has been frequently mentioned in connection with the contest. It is generally understood about the Capitol that First Assistant Attorney General J. W. Lockett, of Henderson, has been awaiting the announcement of his chief before declaring himself in the race for Attorney General.

Its Equal Don't Exist.

No one has ever made a salve, ointment or balm to compare with Bucklen's Arnica Salve. It's the one perfect healer of cuts, corns, burns, bruises, sores, scalds, boils, ulcers, eczema, salt rheum. For sore eyes, cold sores, chapped hands or sprains its supreme. Unrivaled for Piles. Try it. Only 25c at Oberdorfer's.

Church 100 Years Old.

The Little Union Baptist church at Mt. Washington, Ky., will celebrate her 100th anniversary Thursday, April 20. There will be a fine old-fashioned basket dinner. The pastor, Dr. J. A. Both, will give the welcome address, and a number of other speakers are expected to be present.

Averts Awful Tragedy.

Timely advice given Mrs. C. Wiloughby, of Marengo, Wis., (R.No.1) prevented a dreadful Tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1. Trial bottle free. Guaranteed by Oberdorfer.

Corpse Came to Life.

Mourners who gathered about the casket containing the body of Fanny Warren, a negro, at Eatonton, Ga., last week were thrown into a panic when Fanny suddenly came back to life. The supposed corpse nearly broke through the covering of the coffin, and the mourners fled from the scene when they heard the noise of the casket breaking. An undertaker removed the lid and assisted the woman out. She is now under the care of a doctor.

Do Ghosts Haunt Swamps?

No, never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at Oberdorfer's.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will certainly destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally and made in Toledo, O., by F. J. Cheney & Co. Testimonials free.

Zimmerman of Harrisburg, Pa., and many others of both sexes and in all parts of the country first used a sample bottle and now have it regularly in the house.

Bridesmaids Will Not Participate

A news dispatch from St. Louis tells of the withdrawal of the four Catholic bridesmaids from the wedding party of Miss Cora South Brown, who is well-known in Paris, having frequently visited here, because the prospective bridegroom has been divorced. The dispatch is as follows: "Four of the Catholic bridesmaids announced for the wedding of William Glasgow O'Fallon and Miss Cora South Brown, 'the most photographed beauty in St. Louis,' granddaughter of the late Governor John Young Brown, of Kentucky, have withdrawn because the prospective bridegroom has been divorced."

"The bridesmaids are Misses Lucille Cates, Miriam Bonist, Virginia Zeibig and Harriett Lamotte."

"Miss Brown's family is Episcopalian and on account of the divorce the marriage will take place April 26 in St. John's Methodist Episcopal church, of which John J. O'Fallon, great grandfather of the bridegroom, was one of the founders."

O'Fallon owns a ranch at Mercedes Texas, and he met a pretty divorcee in San Antonio. O'Fallon was then only 20 years old. They were married after a short acquaintance, and lived together six weeks. He returned to St. Louis and his wife obtained a divorce a year ago on the ground of desertion.

"O'Fallon is a stepson of W. S. McChester, Jr., general manager of the Terminal Railroad Association."

"Mrs. John Young Brown, the bride's mother explained to-night that none of the girls mentioned as withdrawing as bridesmaids for her daughter were asked to serve, since they were informed that the bridegroom was divorced of the church, and it was decided to request the following to serve as bridesmaids:

"Misses Malotte Houser, Louise Nugent, Irene Clifford, St. Louis; Grace Hays, Nashville, Tenn.; Caroline Banks, Henderson, Ky.; Austine Barton, Louisville, and Belle Finlay, Miss Margaret Ball was chosen maid of honor."

Eraser in the Laundry.

One instrument of cleanliness found in a first-class laundry is a rubber eraser. "That is needed to rub the pencil marks from cuffs," said the manager. "We used to throw that kind of correspondence into soap water and try to wash it clean, but marks made by some pencils soaked in instead of washing out, and left the cuffs splotted and streaked, so they are now treated to a preliminary dry scrub with an eraser."
